

Business Interruption

This full day interactive seminar will provide the basics of business interruption insurance and is targeted for claims adjusters, examiners, brokers and underwriters. There are 6 CE (Continuing Education) credits available for attending this session.

What will be the learning objectives?

- The differences between profits and earnings forms
- A review of worksheets as a tool for setting limits and choosing coverage
- Avoiding co-insurance problems
- Working with publicly available information to assist in underwriting and claims handling
- Understanding financials statements – what to look for
- Discussion of what records are required in a business interruption claim situation
- Examples and review of common claim errors
- Review and discussion of retail and manufacturing based losses, what to look for, how to quantify the loss
- Extra Expenses and Increase in Cost of Working
- Contingent business interruption losses

Facilitators

Bradley J. Ebel, B.Math, CPA, CA, CFE | Partner, President Matson Driscoll & Damico Ltd., Forensic Accountants

Brad Ebel has over 25 years of experience in forensic and insurance loss accounting including litigation support and investigation. Brad has conducted or been involved in over 1,500 assignments encompassing a range of industries and businesses involving companies located in Canada, the United States and overseas.
